Insurers Currently Offering Discounts

Residential Property Insurance Companies Currently Offering Discounts
for Fire Hardened Homes and/or Communities

The number of residential property insurance companies offering insurance discounts for fire-hardened homes and communities has increased since Commissioner Lara took office in 2019. Several companies offer both community-wide discounts (for example, a home in a Firewise or a Shelter-In-Place community) and home-specific discounts (for example, maintaining defensible space or home-safety measures against wind-blown embers). In some cases, these discounts can be combined. Because discounts and ligibility differ by company, we urge you to contact the insurance company directly to find out if your property qualifies.
