

**FALLEN LEAF LAKE CSD
FIRE DEPARTMENT / GENERAL MANAGER
REPORT
March 4, 2017**

RESPONSES

- The fire department responded to several Strike Team and EMS incidents during September and October.

TRAINING

- Winter Operations.

VOLUNTEER PERSONNEL / SEASONAL PERSONNEL

- The fire department is operating in winter mode with our volunteer firefighters.

APPARATUS / EQUIPMENT

- All 4 x 4 Apparatus is operational.

LOCAL AGENCIES / AGREEMENTS

- All local area agency agreements are in place.

PROJECTS AND PREVENTION

- In mid-October the fire department was evaluated by ISO for the purpose of getting credit for the two newer fire apparatus and the fire boat We should have a determination sometime after the first of January..
- The Fallen Leaf Fire Department is continuing to work with the CCFD committee for the purpose of patch funding from El Dorado County. The committee and BOS are considering a long term fix for the fire departments in the county. I have requested \$130,000 in patch funding from the county for the upgrade of staffing, to provide a paramedic firefighter and emt firefighter on each shift.
- El Dorado County determined they will not provide the requested funds. They are working on formulating a possible tax that would be dedicated to fire departments inside the county. If a tax is brought before the voters, it will be on the 2018 general election,
- The CSD manager's office will be drafting a printout of all APN numbers and the owner, with addresses and email addresses for use by the district only for notification of property owners for safety reasons or information that may be provided by the Fallen Leaf Lake CSD.
- I am saddened to report one of our resident recruits (RR's) Daniel Lipscombe passed in mid-January. Daniel was with us over the past two fire seasons and responded on several strike teams and covered the fire station on different occasions. We helped his mother and sister with expenses. We will be doing a memorial service for Daniel sometime in June. I will make everyone aware when a date is chosen.

STORE / MARINA

- The last day to remove boats from the Marina was September 30. All boats were out by the last week of October.
- The stair project was started below the store, but due to weather restraints it will not be finished till after weather allows in April or May.
- All bids should be in by the Memorial Day board meeting for the staining and painting of the Store and Fire Station.
- The Community building has new banquet chairs and tables.

**Gary D. Gerren, Fire Chief/GM
