Subject: RE: policy and procedures

To: Gary Gerren <ggerren@flcsd.org>

Hi Gary,

This document would suggest that the advisory committee is no longer necessary, which would be in keeping with the four corners of the Agreement that you asked me to review. Specifically, the board policy says that it is in effect indefinitely until modification by the Board (see page 1). This implies that there is no advisory committee needed going forward, only the board.

Is this the current board policy, or has it changed since 2011?

Best,
Paul
