

to any vessel operated in such a way as to become a public disturbance. In extreme cases, law enforcement officials will be asked to enforce legal noise limits.

Rental Boats: This section is under consideration to be reviewed at a later date.

Boat Traffic Patterns: Ski patterns, which have been developed by boat users on the Lake, will be posted and available at the marina and will be distributed to each boat that launches. When more than one ski boat is operating, compliance with the pattern is expected. Boats are expected to abide by state boating laws such as a speed limit of 5 mph within 100 yards off shore. The marina operator is responsible for distribution of the rules, but not for enforcement. All Jet Ski users are expected to avoid in-shore waters and to move about the lake so that they do not cause a prolonged and continuing disturbance in one place.

Quiet Hours: Quiet hours are designated as "dusk" to 8:00 a.m. Power boats and jet skis entering and leaving the marina should proceed slowly and quietly while within 300 yards of the shore. At the launching ramp and in the marina and parking lot voices and boat and auto noises should be subdued. The volleyball court is not available for use.

Special Arrangements: Those who desire access to the launch ramp between "dusk" and 8:00 a.m. or who use the facilities before or after the regular season may make arrangements with the marina operator to obtain such access and egress. Users requesting this privilege may be charged a special fee and will be asked to sign a liability release. (Note – the liability release is included in the marina rental contracts and on the receipt for the launch fee during the regular season.) The intent of this special arrangement provision is to accommodate the needs of fishermen and of dock lessees and may be withdrawn if "Quiet Hour" courtesies are not observed.
